

YTZ-1

Canada's Largest Carrier Hotel

Coloware YTZ-1 Data Center

About Coloware:

Coloware provides world class connectivity, colocation, customer service, reliability, security, and accessibility.

Coloware was founded on the premise that affordable connectivity is essential at carrier hotels. Coloware is committed to practical cross connect costs that encourage connectivity between customers and partners. Empower your business with Coloware at Canada's largest interconnection hubs.

Operating out of Canada's largest carrier hotels, Coloware recognized a critical issue: connectivity is essential for the customers we serve, forming the backbone of their operations.

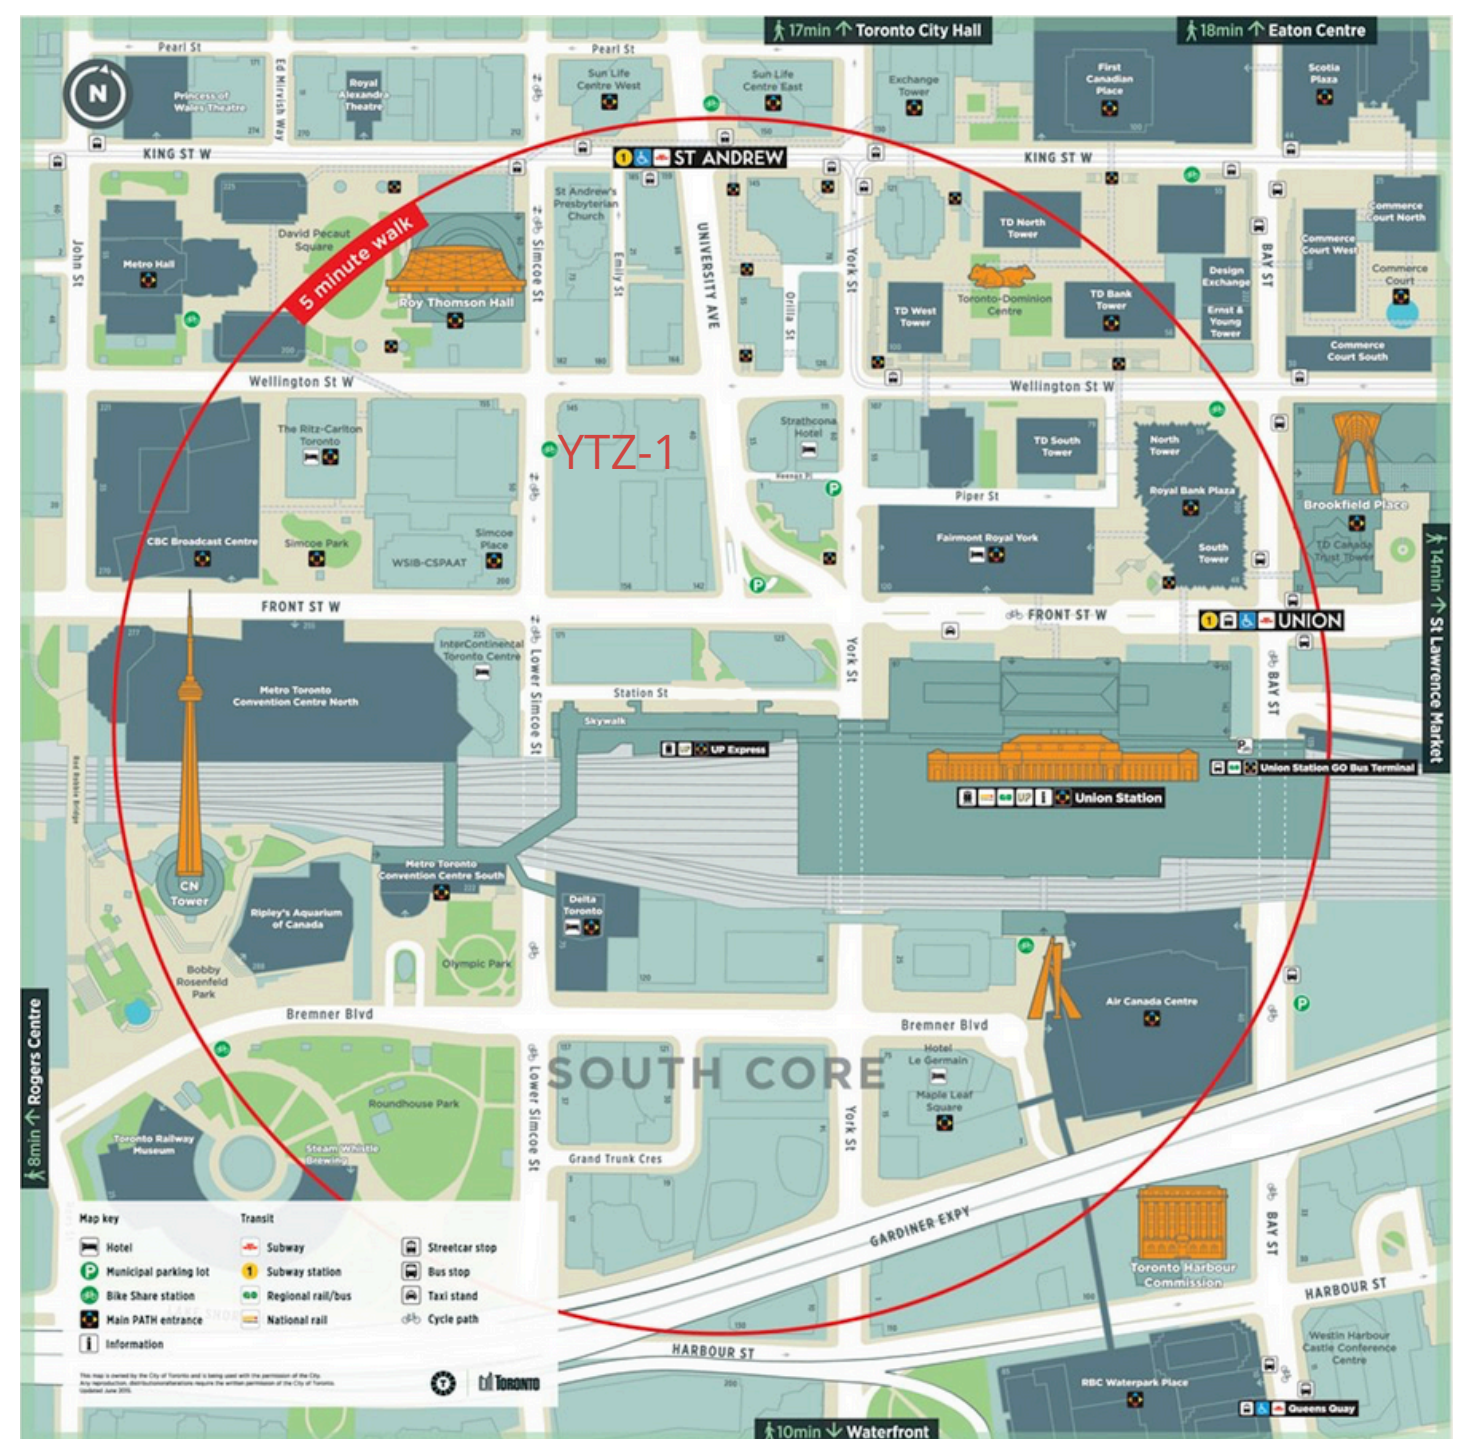

At Coloware, we are committed to partnering with our customers to foster mutual growth. We believe that connectivity, being essential to their business, should not be a barrier to entry.

Toronto YTZ-1 Benefits:

- Largest carrier hotel in Canada - 151 Front Street has a long history of being the most connected building in Canada.
- Strategically located in the heart of Toronto - steps from Union Station and directly adjacent to the UP Express providing 25 minute train service to Toronto Pearson International Airport
- Direct access to Building MMR providing extremely low latency to 100's of ISP's, service providers, and cloud on-ramps.
- Cost-effective network neutral connectivity.

151 Front Street West
Toronto, Ontario M5J 2N1

COLOCATION POWERED BY CONNECTIVITY

YTZ-1 Technical Fact Sheet

Building Overview

Building	
Type	8-story, concrete, steel framework
Floor	
Floor Type	Concrete slab
Load Capacity	150 lbs/sf
Fire Suppression	
Detection	Redundant multi-zone VESDA (Very Early Smoke Detection Apparatus)
Suppression	3M Novec 1230
Security	
Physical	24x7x365 manned security desk with man-trap entry
Electronic	Biometric card readers, motion activated CCTV surveillance with 120-day retention

Products & Services

- Colocation**
- Private Pod
 - Secure Cabinets
 - Rack-Unit Colocation
 - AC Power circuits
 - DC Power circuits
- Connectivity**
- Meet-Me-Room x-connects
 - In-suite x-connects
 - Local Internet Exchanges
 - Dedicated Fiber runs to building Meet-Me-Rooms 1&2
 - Cloud On-Ramps
- Services**
- Remote hands
 - Smart hands
 - Network Consulting

Reliability

Coloware data center services are backed by industry leading Service Level Agreements. Our commitment is 100% uptime on redundant power offerings.

Certifications

- ISO/IEC 27001
- Tier III+ Design
- SOC 1 Type II compliant
- SOC 2 Type II compliant

Amenities

- Crash Carts
- Loaner tools
- Wi-Fi
- Conference Room

Infrastructure

Power	
Power Density	Maximum 14.4 kVA per cabinet
Utility Feeds	2
UPS Configuration	Parallel and Redundant
UPS Redundancy	2N
Delivery	3-phase 240 Volts
Standby Power	
Batteries	Li-Ion - minimum 12 minute run-time
Generators	2 x 2,000 kW Diesel Generators
Delivery Options	
A+B	2N - Fully redundant UPS and Generator
Panel Diversity	N+1 - Redundant feeds from single UPS and Generator
Primary Power	N - Single UPS and Generator
Cooling	
Configuration	Dynamic in-row cooling units (N+1) with hot-aisle containment
Type	Enwave Deep lake water cooling system
Redundancy	N+1 - Enwave and chiller towers located on roof
